**TESTING OF VHF REPEATER STATIONS**

Ref: AIP SUPP 03/17 – Commencement of testing and operational Trials for Aeronautical Surveillance Service using Automatic Dependent Surveillance Broadcast (ADS-B) out operations within Georgetown flight Information Region (SYGC CTA).

Installation of remote VHF Repeater stations located at SYAN, SYKA, SYKM and SYPK are now completed and testing has commenced: to verify transfer rate and integrity of data. Air Traffic Services will conduct radio checks on 128.6 MHz and 124.2 MHz for the purpose of testing. Pilots are asked to cooperate as far as practicable during this period.
